Jena, 05.05.2022

Heracle is an international company in the field of optical fibers for special applications in the areas of medical technology, analytics & sensor technology as well as industrial laser transmission, located in the Technology and Innovation Center on Beutenberg campus in Jena. For the earliest possible start date, we are looking for a...

### Team member in Quality and Production department

(Jena location, part/full-time, open-ended employment contract)

Optical fibers can revolutionize many markets than just communications! Modern optical fibers open new perspectives in applications such as fiber optic sensors and measurement technology, lighting, medical technology, and material processing. Do you feel challenged by this work and want to accompany marketing and sales of optical fibers?

### As our team member you:

- supervise ongoing processes for quality assurance
- control the incoming goods of semi-finished products
- check the relevant optical parameters of the finished products
- coordinate production processes with the sales department
- create cut lengths and work on cleaving or polishing the end faces of glass fibers
- evaluate and manage the process data according to schedule
- accompany product developments as well as customer-specific modifications
- create and keep accurate product documentation and maintain the database

Geschäftsführerin:  
Peggy Bärenklau
